PROFILE

I am a Computer Science and Engineering graduate from Government Engineering College, Patan, with over 4 years of development experience and 2 years of teaching experience. I am currently working as a Backend Developer at AeonX Digital Solutions, Bhuj, where I specialize in building scalable, secure, and efficient backend systems, integrating cloud services, and contributing to high-impact product development.

EDUCATION

Computer Science and Engineering

2013

Government Engineering College, patan(GTU)

WORK EXPERIENCE

Backend Web Developer

NOV 2022 - PRESENT

Aeonx Digital Solutions, Bhuj.

- Designed and implemented scalable backend systems using FastAPI and Laravel, ensuring high performance, reliability, and clean architecture.
- Optimized MySQL database performance by refining queries, improving schema design, and implementing efficient data management strategies.

Assistant Lecturer

Aug 2021 - Nov 2022

Veerayatan Institute, Mandvi

- Delivered captivating lectures, seminars, and laboratory sessions to
- engage and educate undergraduate BCA students.
- Utilized innovative teaching methods to enhance student learning and comprehension.

Web Developer

Sep 2016 - Sep 2017

Chivalry Technology

- Experienced in leveraging backend frameworks, especially Django, to build and integrate robust, secure, and scalable backend functionalities.
- Proficient in developing responsive, user-friendly front-end interfaces using HTML, CSS, JavaScript, and React, with a strong focus on clean UI/UX and maintainable code.

Computer Teacher

JUL 2015 - APR 2016

J.P. & I.S. Highschool, Bhuj

- Designed and delivered engaging, well-structured computer science lessons for high school students, ensuring strong conceptual understanding and practical skill development.
- Created a positive, inclusive, and supportive classroom environment that encouraged curiosity, critical thinking, collaboration, and active student participation.

PROJECTS

Xpense

761 DAYS

Aeonx Digital Solutions, Bhuj.

- Xpense is a cloud-based SaaS platform for managing employee expenses, travel requests, approvals, and reporting with end-to-end workflow automation.
- Offers mobile access, WhatsApp integration, and SAP connectivity, ensuring seamless communication and smooth enterprise integration.
- Trusted by leading companies including AeonX Digital Solutions, Ashapura Group of Industries, and Raymond for secure, scalable, and efficient expense and travel management.
- <https://xpense.aeonx.digital>

Signx

61 Days

Aeonx Digital Solutions, Bhuj.

- SignX by AeonX is a secure digital signature solution designed for efficient signing of documents such as invoices, purchase orders, and contracts.
- Supports bulk signing, customizable approval workflows, and seamless integration, functioning both as a standalone tool or within existing business systems.
- Provides secure API access for automation, helping organizations improve operational efficiency while maintaining high compliance standards.

PROJECTS

JUL 2015 - APR 2016

DocIQ

30 DAYS

Personal Project

- Developed an AI-powered file analysis platform that allows users to upload PDFs and images and interact with them through an intelligent chat interface, leveraging FastAPI, Next.js, and ChromaDB.
- Implemented secure, full-stack features including JWT authentication with email OTP verification, vector search, OCR-based text extraction, document embeddings, and real-time chat using local LLM integration via Ollama.
- Built a modern, responsive user experience with robust document management, chat history, drag-and-drop uploads, and scalable backend architecture using Python and MySQL.
